Experience

8fig

Software Architect

07/2023 - Present

- **Leadership in Front-End Development:** Led the frontend effort by mentoring and hiring 5 skilled developers, while establishing best practices and conventions.
- **Rebuilt Core Products:** Rewrote the frontend for key products managing hundreds of millions of dollars, including the back office for support/risk departments and the main user interface for managing funding plans.
- **Performance and User Experience Enhancements:** Boosted app performance by over 10x and improved user experience and activation by more than 20% through the development of a solid design system and robust frontend infrastructure.

Riverside.fm

Technical Lead & Group Manager

05/2022 - 07/2023

- **Pioneering Developer:** First developer on the Editor product, rewrote it from scratch with a focus on best practices and high performance.
- **Cross-Platform Leadership:** Established communication protocols, built missing workflows, and authored documentation and technical specifications while collaborating directly with the CEO and CTO.
- **Team Building and Management:** After laying the foundation, I built and managed a team of 4 frontend developers, 2 AI backend engineers, 1 core backend engineer, 1 QA specialist, and 1 product designer.
- **Scalable Growth Foundations:** Joined when the Editor had fewer than 3,000 users; laid the groundwork that enabled its growth to millions of exported videos monthly. The Editor product is now maintained by three dedicated developer teams, all built on the foundation I established.

StreamElements

Senior Frontend Developer

10/2019 - 05/2022

- **Early Developer:** One of the first developers (number 7 in R&D), joined during a crucial phase to develop multiple projects from 0 to 1.
- **High-Impact Product Development:** Built and maintained products used by over 2.5 million users daily.
- **Key Contributor to Major Success:** Played a pivotal role in the project that led to the company's explosive growth and secured a \$100M investment from SoftBank.

TGS Travel Engine

Frontend Developer

05/2018 - 10/2019

- **Spearheaded Complex Features:** Boosted user engagement by 25% through developing dynamic calendar and airplane seat selection features.
- **White-Label Infrastructure:** Built and maintained a white-label infrastructure that served major clients like easyJet and Singapore Airlines.
- **Mentorship and Onboarding:** Responsible for mentoring and teaching new joiners, ensuring they were well-equipped to contribute.

Summary

With more than 7 years of experience a strong background in leading software developments and a passion for creating seamless user experiences, I am eager to contribute to a team pushing the boundaries of technology. My experience in rebuilding core products and enhancing app performance aligns with the mission of creating impactful and innovative solutions. I am excited to leverage my expertise to drive advancements.
